

CLOVER FLEX

Take your POS Station beyond the counter

The most complete, fully-mobile option in the Clover ecosystem. Flex is a full-fledged POS, terminal and business management system — all in the palm of your hand.

Clover Flex works as a:

- Standalone POS system **or**
- In conjunction with other Clover devices

- Accept magstripe, chip or contactless cards — plus digital wallets like Apple Pay.
- Because it's a wireless point-of-sale device with Wi-Fi and LTE connectivity, Clover Flex lets you do business from anywhere.
- Take orders, scan and manage inventory, accept payments and generate receipts for printing, emailing or texting.
- Add the Flex — along with the Clover Dining app — to the Clover Station or the Clover Mini for the ultimate restaurant management platform. Seat guests, manage tables, take orders and accept payments — all from the palm of your hand.

Additional fees may apply for some services.
