

CLOVER MINI

A full point of sale system in a small package

Small enough to fit into any space, the Clover Mini packs plenty of POS power to run your full house, front to back. Use it as a standalone POS or pair it with other Clover devices to build the system that's ideal for your business.

- Accept magstripe, chip or contactless cards — plus digital wallets like Apple Pay.
- Mini can be as minimal or full-featured as you want it to be. And it will always grow and scale with your business.
- Go table-side by adding Clover Flex to your Mini.
- Integrate accessories like a barcode scanner, kitchen printers and scales that send info right to your Mini station.
- Full-featured tools including inventory, reporting, employee management and customer analytics help you run a “smart” business.

Additional fees may apply for some services.
