

# INGENICO LANE/3000

Add retail payments to your back office environment

**Designed for retailers on the Paya Connect platform, the Lane/3000 is a fast and secure solution that covers all payment methods.**

- Transactions begin by initiating payment within your Paya Connect account.
- Payment is rendered on the dedicated, customer-facing Lane/3000 device, giving your customers the payment options they desire while saving you the costs associated with hand-keying.
- Accepts EMV chip & PIN, EMV chip & sign, magstripe transactions, contactless NFC, mobile wallet and alternative payment methods.
- The Lane/3000 offers maximum security with end-to-end encryption.
