

MX EXPRESS

A mobile solution to suit your on-the-go needs

When added to your MX Merchant account, MX Express provides an easy-to-use application for accepting payments on-the-go.

- Available for iOS or Android and any number of phones or tablets.
- No matter how the customer is paying — EMV chip, swipe or contactless — an MX Express reader can handle it.
- Transactions occur in real time using your device's data or Wi-Fi connection.
- Customize to meet your needs: signature options, tip amounts, fonts, presentment types — even your choice of printers and readers.
