

INGENICO MOVE/5000

Create new consumer experiences by combining payment and mobility

Enhance customer experiences outside of the traditional checkout lines.

- All forms of electronic payments are supported, including EMV chip & PIN, chip & sign, magstripe, signature capture and NFC/contactless.
- Dedicated customer-facing NFC card reader for faster transactions to keep your business and customers moving.
- Smart integration capabilities with specialized back office platforms, such as Paya Connect and MX™ Merchant, provide access to instant, real-time reporting and additional processing features.
- All devices are PCI-PTS 5.x certified and satisfies the latest hardware and software security requirements.
