

OMNIFLEX

The all-in-one online solution for smarter payments

OmniFlex offers the convenience to accept credit, debit and recurring payment transactions with the advantage of reporting accessibility from any location with an internet connection.

- Accept EMV credit, debit, cash and check payments.
- Ability to manage and support multiple users and locations to get an overall view of your payment data.
- Process recurring payments, provide invoices via email or SMS text message and send electronic receipts to your customers.
- Easy transaction management to issue refunds and adjustments.
- Supports Level 2 and Level 3 payments (B2B).
