

MX INVOICE

Invoicing your customers is integrated and effortless

MX Invoice, an added feature to your MX Merchant account, makes invoicing easy, automatic and completely accurate, simplifying your billing process to get paid faster.

- Accept credit card payments directly from an invoice, making collection of funds quick and simple.
- With electronic invoicing, bills are delivered faster, cheaper, more securely and more hassle-free for your customers.
- Design the invoice framework to reflect your business identity. Include your logo, a header message and optional return policy.
- Track the history of each invoice along with any outstanding balances. As payments are received, the status of the invoice adjusts automatically.
- Create customer profiles for recurring billing.

Additional fees may apply for some services.
